Unit 17

Preliminary Note:

Beginning with this unit, the programming format will include practice exercises appropriate to the point being developed.
Unit 17

1. You will remember from previous units that many Portuguese nouns ending in a vowel sound simply add an \(-s\) sound to form the plural.

\[\text{festa} \rightarrow \text{festas} \quad \text{escritório} \rightarrow \text{escritórios} \]
\[\text{semana} \rightarrow \text{semanas} \quad \text{noite} \rightarrow \text{noites}\]

2. Now, recall the word for 'lesson'. Recall that it has a stressed nasal diphthong in the last syllable.

\[\text{lição} \quad ( )X ( )X\]

3. When this word is made plural, something happens to its nasal diphthong before the \(-s\) is added. The nasal diphthong is replaced by another nasal diphthong, a blend of the nasal \(\text{o}\) sound and the \(\text{i}\) sound. It is written \(\text{œe}\).

\[\text{œe} \quad ( ) ( ) ( )X ( )X ( )X\]

4. Thus, the plural of \(\text{lição}\) is

\[\text{lições} \quad ( ) ( )X ( )X ( )X\]

5. Most other words that end in \(\text{âo}\) in the singular form will have the \(\text{œe}\) diphthong in the plural form. This includes a long list of words that are easily recognizable counterparts (cognates) of English words ending in \(-tion\) and \(-sion\). For example, the English word \(\text{nation}\) is \(\text{nação}\) in Portuguese. (Be careful not to use the English \(\text{sh}\) sound. Instead, use the Portuguese \(\text{s}\) sound.)

\[\text{nação} \quad ( ) ( )X ( )X\]

6. In the plural form, the nasalized diphthong \(\text{âo}\) is replaced by the nasalized diphthong \(\text{œe}\).

\[\text{nações} \quad ( ) ( )X ( )X\]
Practice 1. (Recorded)

Here are several words whose English counterparts end in '-tion' or '-sion'. You should look at them as you listen and repeat. They will all be fairly easy to recognize; hence we call them 'close cognates'. Notice that the English sh sound corresponds to the Portuguese s sound (numbers 1-9) and the English ʒ sound corresponds to the Portuguese z sound (numbers 10-12). Each Portuguese word is recorded twice.

7. Here is the Portuguese word for 'formation'.

formação ( )x ( )x

8. How would you say the plural formations?
(formações)

Verify: ( )x ( )x

9. Here is 'vibration'.

vibração ( )x ( )x
10. How would you say 'vibrations'?
(vibrações)
Verify: ( )X ( )X

11. Here is an English plural form: 'intentions'. In Portuguese it is
intenções ( )X ( )X

12. How would you say the singular, 'intention'?
(intenção)
Verify: ( )X ( )X

13. Before we go on, let us hasten to warn you that not every -ion word in English converts to a word ending in âo in Portuguese, but very many of them do.

14. Here's one more that does: 'opinion'.

opinião ( )X ( )X
opiniões ( )X ( )X

15. There are several Portuguese singular nouns ending in âo whose plurals end in still another nasal diphthong. This diphthong is the 'last' nasal diphthong, the only one that you have not yet been formally introduced to. Here it is:

ãe ( ) ( )X ( )X ( )X

16. Here are two common words which have âo in the singular and âe in the plural. Notice that they are one syllable words.

1. 'dog' : cão ( )X ( )X
   'dogs' : cães ( )X ( )X
2. 'bread' : pão ( )X ( )X
   'bread(s)' : pães ( )X ( )X

17.4
17. The ãe diphthong appears elsewhere, too, as in 'mother'.

'mother': mãe ( )x ( )x

18. What happens to words that end in stressed -al (like jornal) when they are made plural? They do not just add -s. Instead, the -al is replaced by the non-nasal diphthong ai, and then the -s is added. This gives the ending -ais. Remember, it's not nasal.

ais ( ) ( )x ( )x

19. Thus the plural for jornal is jornaís.

jornal ( )x ( )x
jornaís ( )x ( )x

20. Portuguese has many words that go through this sort of change, and again we can draw examples from words (both nouns and adjectives) which closely resemble their English counterparts. In repeating the singular form in the following practice be sure to give the final -L that special 'w-like' quality we mentioned in earlier units.

21. Here is the adjective 'local'.
   \[ \text{local} \quad ( \ )X ( \ )X \]

22. How would you say the plural form?
   (locais)
   \[ \text{Verify:} \quad ( \ )X ( \ )X \]

23. Here is the adjective 'normal'.
   \[ \text{normal} \quad ( \ )X ( \ )X \]

24. What is the plural?
   (normais)
   \[ \text{Verify:} \quad ( \ )X ( \ )X \]

25. The English plural form 'mortals' is given in Portuguese as:
   \[ \text{mortais} \quad ( \ )X ( \ )X \]

26. What is the singular form?
   (mortal)
   \[ \text{Verify:} \quad ( \ )X ( \ )X \]

27. Again we must warn you that not all English words ending in -al will convert into Portuguese as nicely as the examples given above. Many of them will, however.

28. Here is another that does, the word 'metal'.
   \[ \text{metal} \quad ( \ )X ( \ )X \]

29. What is the plural?
   (metais)
   \[ \text{Verify:} \quad ( \ )X ( \ )X \]
30. Here is a plural form: **capitais**. How would you say the singular? (capital)

Verify: ( )X ( )X

31. Now let's review another point. Recall these instances when the pluralizing -s sound of the definite article becomes a -z sound because a vowel sound follows immediately afterwards. Listen for the -z sound, and repeat.

1. os_ estados ( )X ( )X
2. os_ escritórios ( )X ( )X
3. as_ avenidas ( )X ( )X
4. as_ esposas ( )X ( )X
5. as_ horas ( )X ( )X

32. The same thing happens to the -s at the end of other words when these words are followed immediately by a vowel sound. The -s sound becomes a -z sound.

**Practice 3.** (Recorded) Listen and repeat.

17.7
33. In the last unit you learned the past tense forms of a number of common -er type verbs. In this unit we will look at the past tense forms of some common -ir type verbs.

34. You remember that the neutral form for the verb 'open' is abri. Here now is the form for 'I opened' (past tense).

\[
( ) ( ) X ( ) X
\]

35. Sair is the neutral form for 'leaving'. Here is the form for 'I left'.

\[
( ) ( ) X ( ) X
\]

36. Here is a new verb, the neutral form for 'sleeping'.

\[
dormir \quad ( ) ( ) X ( ) X
\]
(One way to remember this verb is to associate it with the English word 'dormant'.)

37. Here is the form for 'I slept'.

\[
( ) ( ) X ( ) X
\]

38. Repeat again as shown.

I opened \quad abri \quad ( ) X ( ) X
I left \quad saï \quad ( ) X ( ) X
I slept \quad dormi \quad ( ) X ( ) X

39. preferir is the neutral form expressing the notion of 'preferring'.

\[
preferir \quad ( ) X ( ) X
\]
40. How would you put preferir into the past and say 'I preferred'?
(preferi)

Verify: ( )X ( )X

41. Repetir expresses the notion of 'repeating'.

repetir ( )X ( )X

42. How would you say 'I repeated'?
(repeti)

Verify: ( )X ( )X

43. Sentir expresses the notion of 'feeling'. (Associate it with English 'sentiment').

sentir ( )X ( )X

44. What is the form for 'I felt'?
(senti)

Verify: ( )X ( )X

45. Cair expresses the notion of 'falling'.

cair ( )X ( )X

46. How would you say 'I fell'?
(cai)

Verify: ( )X ( )X

47. Try these forms all together.

abri ( )X I opened
sai ( )X I left
dormi ( )X I slept
senti ( )X I felt
preferi ( )X I preferred
repeti ( )X I repeated
cai ( )X I fell

17.9
48. Now let's go to the he-form. The ending for this form is the diphthong -iu. Repeat just the ending in this frame.

   -iu ( ) ( )X ( )X ( )X

49. Now let's attach it to the end of some verbs. Here, for example, is 'he opened'.

   abriu ( )X ( )X

50. Here is 'he slept'.

   dormiu ( )X ( )X

51. What is the form for 'he left'? (saiu)

   Verify: ( )X ( )X

52. What is the form for '[he] repeated'? (Neutral form: repetir)

   repetiu

   Verify: ( )X ( )X

53. What is the form for '[she] preferred'? (Neutral form: preferir)

   preferiu

   Verify: ( )X ( )X

54. What is the form for '[she] fell'? (Neutral form: cair)

   caiu

   Verify: ( )X ( )X

55. What is the form for '[he] felt'? (Neutral form: sentir)

   sentiu

   Verify: ( )X ( )X
56. Now review these forms.

preferiu ( )X
saiu ( )X
abriu ( )X
sentiu ( )X
dormiu ( )X
repetiu ( )X
caiu ( )X

Practice 4. (Recorded)

Listen to this set of short questions and answers as delivered by speakers A and B.

Practice 5. (Recorded)

This time you are to answer the questions. Answer them all in the affirmative, then check the tape for confirmation.

57. In the we-form, -ir type verbs add the ending -imos.

-imos ( ) ( )X ( )X

58. Thus 'we opened' would be said like this:

abrimos ( )X ( )X

59. 'We slept' would be said like this:

dorrimos ( )X ( )X

60. How would you say 'we left'?

(saiamos)

Verify: ( )X ( )X

61. How would you say 'we fell'?

(caimos)

Verify: ( )X ( )X

17.11
62. Repeat these three items.

repetimos ( )X ( )X : 'we repeated'
preferimos ( )X ( )X : 'we preferred'
sentimos  ( )X ( )X : 'we felt'

63. The they-form of these verbs utilizes an ending which is deserving of a bit of special practice.

a. First, repeat the already familiar -eram ending of -er verbs in the past.

-eram ( )X ( )X ( )X

b. Now, substitute the -i sound for the -e sound and you have the ending for -ir verbs. Listen and repeat.

-iram ( )X ( )X ( )X ( )X

64. Therefore, the form for 'they left' must be:

( ) ( )X ( )X

65. The form for 'they opened' is:

( ) ( )X ( )X

66. 'They slept' is:

( ) ( )X ( )X

67. Here are the above forms, plus some others, in print. Repeat as indicated.

saíram  ( )X ( )X
abriram  ( )X ( )X
dormiram  ( )X ( )X
repetiram  ( )X ( )X
cairam  ( )X ( )X
preferiram  ( )X ( )X
sentiram  ( )X ( )X
Practice 6. (Recorded)

Listen to this short set of questions and answers as given on the tape by two instructors. Numbers 1-4 ask 'Did you-all do something?'. Numbers 5-9 ask 'Did they do something?'.

Practice 7. (Recorded)

This time you are to answer the questions. Answer them all affirmatively. Check your answers with those given on the tape.

68. Notice this sentence:

   Saí de lá  ( )X ( )X 'I left there'.

69. Now notice this one:

   Saí do Rio  ( )X ( )X 'I left Rio'.

70. And this one:

   Saí da cidade  ( )X ( )X 'I left the city'.

71. The word de appears between the verb sair (or one of its forms) and the place left from. That is, Portuguese says 'I left from such-and-such a place', rather than 'I left such-and-such a place'. Where one of the definite articles is involved, the de enters into the appropriate contraction, as in No's 69 and 70 above.

72. So, if you wanted to say 'I left the party', you would say:

   Saí da festa  ( )X ( )X

73. How would you say 'I left the Embassy?' Make the contraction.

   (Saí da Embaixada)

   Verify: ( )X ( )X

74. How would you say 'He left the school?'

   (Ele saiu da escola.)

   Verify: ( )X ( )X

17.13
75. Here is 'He left Joe's home' (the home of Joe).

   Ele saiu da casa do José ( )X ( )X

76. Contrast this with 'He left home', which contains no contraction since there is no article ('the') to contract with de.

   Ele saiu de casa ( )X ( )X

77. How would you say 'He left the park'? Use do.

   (Ele saiu do parque)

   Verify: ( )X ( )X

78. How would you say 'He left the office'? 

   (Ele saiu do escritório)

   Verify: ( )X ( )X

**Practice 8. (Recorded)**

Put these brief utterances into Portuguese. Confirm with the tape.

1. He is going to leave Brazil.
2. He is going to leave Rio tomorrow.
3. He has already left the Embassy.
4. He left there yesterday.
5. He plans to leave home early.
6. He left the restaurant early.

**Pronunciation**

79. Portuguese has a very few words beginning with the consonant cluster pn. This is a combination of sounds which English speakers do not have at the beginning of a word, so it may be troublesome at first. The word for 'automobile tire', which begins with this cluster, appears in the dialog for this unit.

   pneu ( ) ( )X ( )X
80. You pronounce both the \( p \) and the \( n \), and follow with the familiar diphthong \( eu \).

\[
( ) ( )x ( )x
\]

Note: Before going on to the dialog, take note of the new verbs presented in the section just concluded.

\begin{itemize}
  \item cair
  \item dormir
  \item sentir
  \item preferir
  \item repetir
\end{itemize}

* Supplementary note and practice. (Recorded)
The neutral form is dirigir. This verb fits into the same category as sair, dormir, etc., presented earlier in this unit. Thus,

dirigi ( )X ( )X 'I drove'
dirigi ( )X ( )X 'He drove'
dirigimos ( )X ( )X 'We drove'
dirigiram ( )X ( )X 'They drove'

----------
dirigir ( )X ( )X (neutral form)
Expansion Exercises

Adverbial Time Expressions

Expansion Exercise 1 (Recorded)

Practice these time expressions.

a. tonight
   hoje à noite ( )X ( )X
   hoje de noite ( )X ( )X

b. tomorrow night
   amanhã à noite ( )X ( )X
   amanhã de noite ( )X ( )X

c. last night
   ontem à noite ( )X ( )X
   ontem de noite ( )X ( )X

d. this afternoon
   hoje à tarde ( )X ( )X
   hoje de tarde ( )X ( )X

e. tomorrow afternoon
   amanhã à tarde ( )X ( )X
   amanhã de tarde ( )X ( )X

f. yesterday afternoon
   ontem à tarde ( )X ( )X
   ontem de tarde ( )X ( )X

g. this morning
   hoje de manhã ( )X ( )X

h. tomorrow morning
   amanhã de manhã ( )X ( )X

i. yesterday morning
   ontem de manhã ( )X ( )X

Notice that 'afternoon' and 'night' are preceded by either à or de.

Expansion Exercise 2 (Recorded)

Identify these terms by placing the letter of the correct translation in the blank. Stop the tape whenever necessary.

1. ( )__________ a. This afternoon
2. ( )__________ b. This morning
3. ( )__________ c. Tomorrow morning
4. ( )__________ d. Tonight
5. ( )__________ e. Yesterday afternoon
6. ( )__________ f. Last night
7. ( )__________ g. Tomorrow night

17.18
Expansion Exercise 3 (Recorded)

a. Practice putting these items into Portuguese.
   1. I left this morning.
   2. I'm going to leave tonight.
   3. She's going to leave tomorrow night.
   4. But Paul is going to leave tomorrow morning.
   5. I'm not going to study this afternoon.
   6. Because I already studied last night.
   7. Did you sleep well last night? (essa noite)*
   8. No, but I'm going to sleep well this morning.

b. Prepare these brief questions and answers, either by yourself or with one of your fellow students. Use é que in the questions. For example, No.1 would be: Quando é que o senhor saiu?

   1. When did you leave? \( \text{Yesterday morning.} \)
   2. When did you return? \( \text{Yesterday afternoon.} \)
   3. When did you fall? \( \text{This morning.} \)
   4. When did you fall asleep? \( \text{This morning.} \)
   5. When did you go home? \( \text{(para casa)} \)
      \( \text{Last night.} \)
   6. When did you write the letter? \( \text{This afternoon.} \)
   7. When are you going to sleep? \( \text{Tomorrow morning.} \)
   8. When are you going to drive? \( \text{Tonight.} \)

* Essa noite refers to sleeping time. When the reference is to time other than sleeping time, 'last night' is given as ontem à noite or ontem de noite. 'I went to the movies last night' would be Eu fui ao cinema ontem à noite or ontem de noite.
9. When are you going to return?        Tomorrow morning.
10. When are you going to practice?    Tomorrow night.
11. When are you going to read the      Tonight.
    book?
12. When are you going to arrive       Tomorrow after-
    in Rio?                        noon.

Comprehension

Listen to these sentences and make a note of any that are not clear to you.

   B. I had to return because I have a lot of things to do.

4. A. Are we going to go back now?
   B. Why not? Don't you want to?
   A. Yes, but it's raining.
   B. But we're going in Yara's car.
   A. Hmm. I think I'm going to stay here.

5. A. At what time are you going to leave for New York?
   B. At 11:00. After the party.
   A. But isn't that late?
   B. Yes, it is. But I'm in a hurry.
   A. Drive carefully! (Dirija com cuidado!)
